C.P. HART
BATHROOM COLLECTION 2011

DESIRE

Wherever you look, whatever you touch and whoever you talk to, we want you to be inspired by C.P. Hart. So don't just browse. Daydream. Don't just think. Imagine a beautiful space filled with desirable objects. This introduction to our bathrooms and services is the first, small step. A visit to www.cphart.co.uk, where you can see thousands more products, could be next. And then, perhaps, a visit to a C.P. Hart showroom where you can experience at first hand, the source of bathroom inspiration.

A modern bathroom with a large window, a bathtub, a shower, and a vanity. The room features dark walls, a dark floor with a herringbone pattern, and a large window that looks out onto a lush green landscape. A white bathtub is positioned in front of the window. To the left is a glass-enclosed shower area with a white shower pan and a white toilet. To the right is a long, dark vanity with a white countertop and a rectangular sink. A small, round, white side table with a towel is next to the bathtub.

THE PAST, PRESENT AND FUTURE OF BATHROOMS

C.P. Hart was established in 1937. If he walked into one of our showrooms today, Charles Percival Hart would be impressed by materials such as acrylic polymers, UV bonded glass and micro LEDs. He would be fascinated by chromotherapy and hydro-massage. Most of all he'd be delighted that we remain committed to the standards of customer service and quality on which he founded his company.

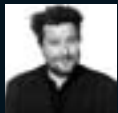

C.P. Hart work with world-class designers, architects and innovators to put the bathroom at the heart of the modern home. Here is just a selection:

OUR DESIGN SERVICE

We have a lot of fun designing bathrooms and, of course, the ingenuity and creativity of some of the world's great product designers and architects has already been at play, even before our 'work' begins. But don't underestimate the sheer hard work that goes into the configuration of the perfect bathroom – one that looks sensational, works flawlessly and enhances your lifestyle. Fortunately, our experienced designers are inspired equally by the big picture and the tiny detail.

TAKE YOUR TIME

Not rushing things is an important part of the C.P. Hart experience. Some people think inspiration comes in a flash of light. We think inspiration starts the moment we meet you and carries on until the lights are dimmed, the water is running and the door is locked.

So we won't hurry you. Browsing, thinking and deciding are all part of the enjoyment. All part of the service.

INNOVATION

TIMES HAVE CHANGED

Once, the bathroom was a place of functional necessity – a room that merited no more than a line in an estate agent's description. Now? It's a feature in its own right that enhances your lifestyle immediately, and adds value to your home forever.

Make it a sanctuary, where you set a combination of water, music, light, scent and temperature to your mood. Make it a living, breathing, sociable space to share time, relax and splash away the cares of the day. Make it the centre of your home.

ISTANBUL

There's never been a more liberating time to be a product designer. New age materials and manufacturing techniques allow products of the most vivid imaginations to be translated into practical, beautiful reality. At the cutting edge of bathroom design, there are virtually no constraints on shape, structure or creativity.

A NEW MATERIAL AGE

Resin, stone and acrylic compounds bring infinite possibilities to bathroom design. These new composite materials are non-porous and extremely hygienic. Composites are as durable as stone, yet have a velvety softness to touch. Like glass, they can have a translucent quality. Composites can be carved, poured and worked into sinuous, organic shapes, or used to form large, seamlessly smooth surfaces. We love the way these new materials are transforming bathroom aesthetics and functionality.

CONTEMPORARY

Contemporary bathrooms are all about you and how you want to live, using an infinite palette of colours, materials, textures and ideas. Brassware isn't always made of brass. It doesn't even have to be the colour of metal. Bath tubs can be made of wood, and covered in faux hide or crocodile skin effect. Showers can rain, mist, drench and cascade. Your storage can be built in, recessed or free standing.

MUSE

DETAIL

Some of the attention to detail is visible but subtle – such as the book-matched grain of this solid wood furniture facing (pictured right). Much of it exists in the thought that we put into the ergonomics of your bathroom. And some of it is completely invisible, such as underfloor heating and recessed storage.

M COLLECTION

BALANCE

RITUALS

Increasingly, the bathroom is a sociable place – but that doesn't mean you have to give up your own preferences. At C.P. Hart we'll help you design and build a bathroom which allows for your individuality as well as your shared rituals.

COLOUR

One of the joys of a new bathroom is the sheer range of colour choices. Everything is 'in', nothing is 'out'. Clean, bright white....if you like. Mellow, soft, organic....feel free. Vibrant, bold metallic. Go ahead and make your own personal statement.

CLASSIC

At C.P. Hart we bring everything up to date to match modern lifestyles – even the classics. You could choose a free standing, cast-iron tub, with a funky mosaic finish. Drawers might have a crafted dove-tail joint, and a crafty soft close mechanism.

Our collection of Classic bathrooms pays homage to the style and craftsmanship of the past, without compromising on those advances which make the present day just a little more colourful and comfortable.

BLUE MOON

You don't have to go to a health spa or a luxury hotel. Imagine this. All of the surfaces in your wet room, with concealed heating, are warm to the touch. Your hydrotherapy bath directs water jets at the precise area of your body that you want to massage.

You point the remote control to set the shower running before you even open the frameless glass door. The lighting is dimmed. The music is mellow. You're in your own home, and you are indulging your senses in a C.P. Hart bathroom.

THE PLEASURE OF WATER

Water can be calming or invigorating, sensuous or therapeutic, sociable or solitary. Celebrate the pleasure of water and its fluid variations of movement and temperature. Mimic nature with combinations of rainfall, mist, spray, waterfall and drench. Feel the softness of thousands of invisible bubbles under an aerated shower.

THINK OF YOUR BATHROOM AS A

BLANK CANVAS

YOUR BATHROOM CAN BE ANYTHING YOU WANT

Don't be constrained by tradition.

Don't be intimidated by designer chic.

Mix. Match. Combine. Blend. Pick and choose.

Everything is possible.

The bathroom is the inner sanctuary of your home – we'll work with you to design it exactly how you want it to be.

Each of the following three sets uses Hoxton furniture and London ceramics (all exclusive to C.P. Hart), but with different finishes to illustrate just how flexible we can be together.

SPACE

The embossed finish on both the chest and the bath is called Silver Pillow, conveying a metallic, but textured feel. Very chic. Very cutting edge. Very suitable for this urban loft, where the round-edged black wood detailing says '21st century antique'. Pendant globe lights and pure white ceramics lighten the atmosphere. The simplicity of the acrylic glass handles and taps is a nod to tradition.

CREATE YOUR OWN
STYLE WITH HOXTON
FURNITURE. THIS
FLEXIBLE RANGE HAS
TWO MAIN FINISH
OPTIONS AND VARIOUS
FACING STYLES.

STYLE

These days the bathroom is as sociable as a living room, so the double-ended bath is as wide and long as a comfy sofa. The stately chest of drawers is another reminder of how times have changed, bringing natural finishes and warmth into the bathroom. The shape and cross-bevelled edges of the mirror hint at technology, while the lime rendered walls and slate coloured floor bring a natural, country residence feel.

THE LONDON
COLLECTION OF
CERAMICS IS A
COMBINATION OF
ROBUST LINES AND
ELEGANT CURVES.

ELEGANCE

This cast-iron Greenwich Bateau bath, hand-painted in black sets the right tone for a new bathroom in a period property. The glossy black facing to the Hoxton furniture (subtly repeated in the tap levers) and the simple acrylic glass handles are all part of an uncluttered, classic look. Taps and shower handle have a nickel, slightly antiqued finish.
